Spectralink Butterfly Series

Five Vibrant Colors – Same Great Features

spectralink
solving every day

Spectralink offers a colorful, trendy, and lightweight DECT handsets designed especially for office environments that fulfills your basic wireless telephony needs. The Spectralink Butterfly Series combines usability and stylish design with high quality voice. The Spectralink Butterfly Series is designed especially for office environments that need the most important features and functionalities within basic voice and messaging.

The handset is available in a range of fashionable colors but all with the same great features. Use the Butterfly color palette to support your business identity or to distinguish employee groups.

Business Benefits

The Spectralink Butterfly Series has an intuitive and easy-to-navigate menu structure and a four-way navigation key with user-friendly icons.

Employees can move around the company freely while constantly being accessible. This will shorten response time and streamline the daily workflow as information can be delivered to the right person exactly where and when it is needed. With the smartly combined desk stand and belt clip it is easy to carry the handset around while keeping your hands free for working.

BENEFITS

- Supported on Microsoft® Lync™ Server
- User-friendly wireless handset designed with basic functionalities for employees in office environments
- Easy to implement into the daily workflow as the handset is easy to operate and has a simple and intuitive menu structure
- Increases efficiency as employees have better and faster access to the information they need
