

VT 7000 Series

VT 7000UNC Corded Headset

VT 7000UNC-D Corded Headset

With a 300° pivot microphone boom, reinforced speaker cabinet and the use of stress and scratch resistant Nano plating technology, the VT7000 series has been designed to withstand the hardest of call centre environments. In addition to the lightweight design and all day comfort, the VT7000 also allows the user to find the perfect microphone position. With dynamic sound quality everyone comes in loud and clear. The noise cancelling microphone picks up the operators voice with precision.
